

Board of Regents Policy: Financial Affairs – Section 940.9.3 Use of Building Fees

RESOLUTION #1

Of The

ASSOCIATED STUDENTS OF MONTANA STATE UNIVERSITY BILLINGS

SUPPORTING THE REPLACEMENT OF THE EXISTING STEAM BOILERS

IN CONJUNCTION WITH FACILITIES SERVICES

WHEREAS ASMSUB Senate recognizes that the current boilers have been operating 20+ years past their ASHRAE assigned expiration date;

WHEREAS ASMSUB Senate recognizes that one boiler is no longer operational due to a failed burner, and the second boiler is running below current ASHRAE guidelines;

WHEREAS ASMSUB Senate recognizes that replacement of the existing steam boilers would increase efficiency and control of the heated water supply in the Alterowitz Building;

WHEREAS ASMSUB Senate recognizes that failure to install updated boilers could lead to boiler malfunction, loss of hot water, frozen pipes, loss of use of Alterowitz facilities, and expenses related to repair;

THEREFORE LET IT BE RESOLVED that the Associated Students of Montana State University Billings supports Facilities Services in the excavation of the existing boilers and ancillary materials, and the installation of two updated steam boilers at Montana State University Billings.
