RE: Nomination to the Montana Motorcycle Safety Advisory Committee

DATE: March 2014

It is my recommendation that David Evans be appointed, effective December 31, 2013 for a four-year term to the Montana Motorcycle Safety Advisory Committee.

Mr. Evans is certified as a RiderCoach[®] by the national Motorcycle Safety Foundation (MSF certification #128435), and is an instructor of motorcycle safety training for Montana Motorcycle Rider Safety. Mr. Evans also is certified by MSF as a RiderCoach[®] Trainer, and has trained many of the RiderCoaches[®] currently working for MMRS.

Mr. Evans is a talented, responsible, and dedicated instructor of motorcycle safety. He promotes motorcycle safety in his community and throughout Montana. In his work as a RiderCoach[®] Trainer, Mr. Evans has distinguished himself among his peers with his broad knowledge of motorcycle safety training and ability to help individual RiderCoaches[®] serve students better. He has also demonstrated that he has a broad view of the roles of rider training, highway safety, and licensing in improving the safety of Montana's motorcycle riders. Mr. Evans would represent both MMRS and its instructors with distinction, and his presence on the MMSAC would help improve motorcycle safety in Montana.
