

September 17-18, 2014

ITEM 164-2901-R0914

Notification of full implementation of the Associate of Science – Registered Nurse degree approved by the Board of Regents in March 2011

THAT

Great Falls College MSU will do an intake of students into the Registered Nurse Associate of Science in fall 2015.

EXPLANATION

In September of 2012, Great Falls College MSU notified the Board of the delayed implementation of the Associate of Science Registered Nurse program. The delay was due to the challenges recruiting qualified nursing educators. Since then, the College successfully recruited a nursing program director and two faculty and will move forward with the implementation of the ASN as approved by the Board in March 2011.
