ITEM 185-108-R1119
Institutional Organization Policy Revision

THAT

The Board of Regents revises BOR Policy 218 – Institutional Organization to remove outdated language and to clarify that a campus may announce a proposed organizational change prior to board approval.

EXPLANATION

Policy 218 – Institutional Organization describes organizational changes that require review and approval by the Board of Regents. This revision removes two such approvals (for ‘lead institutions’ and for ‘off-campus resident centers’ that no longer have clear meaning in the context of other board policies. The revision also clarifies that institutions may announce proposed organizational changes, though they may not implement such changes until board approval is received.
