ITEM 187-1022-R0320

Request for Authorization to Implement Elevator Projects, University of Montana - Missoula

THAT

Consistent with MCA 18-2-102 (2) (b) and Board of Regents Policy 1003.7, the Board of Regents authorizes the University of Montana - Missoula to implement steps necessary to install a new elevator at Washington Grizzly Stadium and renovate and upgrade an elevator at Knowles Hall using proceeds from bond funds. This request is for a total of \$965,000.

EXPLANATION

The two platform lifts that give access to the west and north side of Washington Grizzly Stadium are beyond repair and need replacement. It has been determined that a single new state of the art elevator will be installed to serve as ADA access to the areas previously served by the lifts. The existing elevator in the Knowles Hall residential facility is original from 1963 and is not reliable. Parts can no longer be obtained for the critical elements to keep the elevator in service. It is in need of modernization to extend its operational usefulness and reliability.

Funding Source: This project is funded with maintenance funds from Auxiliary Operations Revenue (Renewal and Replacement Budget) derived from the recent bond issue proceeds.

Estimated Cost: the total project cost will not exceed \$965,000
