

November 19-20, 2020

**ITEM 191-2006-R1120**

**Request for Authorization to Repair the Brick Breeden Field House; Montana State University**

---

**THAT**

Consistent with provisions of MCA 20-25-302(1) and BOR Policy 1003.7, the Board of Regents authorizes Montana State University to repair the roof and associated building infrastructure on the Brick Breeden Field House. The authorization is for up to \$1,200,000.

---

**EXPLANATION**

1. On March 7, 2019, Montana State University (MSU) experienced significant damage to the Brick Breeden Field House (BBFH) roof due to unprecedented snow loads.
  2. MSU received approval from the Board of Regents (186-2007-C0120) as well as RMTD to engage an architect for planning and design for necessary repairs to the facility. MSU seeks Regents approval to move forward with construction repairs to the existing BBFH facility including the roof and associated building infrastructure.
  3. The BBFH roof was temporarily fixed and shored as part of the exigency process in responding to the gym losses at the Marga Hosaeus Fitness Center in March 2019. The revised repairs will significantly improve the existing roofing system to ensure a long-term, safe solution to the facility.
  4. This request does not grant additional square footage and does not create new programs.
  5. MSU is following MCA 2-17-105 to utilize insurance proceeds provided by State of Montana Risk Management and Tort Division.
