Many components of an engine are designed to have a one-time use, and would be considered consumable. Examples would be gaskets, main/connecting rod bearings, and torque to yield fasteners. Another common expense is for thread repair kits. It is very common for students to over torque fasteners, resulting in stripped threads or broken bolts. In the case of a broken bolt, drill bits and bolt extractors are needed. These tools have a very limited reusability before they would need to be replaced.

The lab also uses state of the art technology that has been required by our Diesel Advisory Board. This technology is crucial for staying current with industry standards.

The costs of supplies for the labs have increased and the current fee does not cover these increases. This course is required on the 4-year B.S. Diesel Technology degree which is nationally-accredited through the AED Foundation. In order to maintain the AED accreditation, new lab activities have been put in place that require lab expenditure- e.g. replacing wheel seals, packing bearings with grease. there are other supplies that are constantly needed also-washers, cotter keys, axle/spindle nuts, other nuts/bolts, brake springs, as examples, for the current trainers. Due to the number of students using the trainers, a lot of these parts are worn out.

Cleaning, maintenance, repair, and replacement surplus. Performance laboratory attire.	The College of Health Sciences (COH) has recently developed a new health sciences laboratory that allows students majoring in Integrated Health Sciences to gain practical experience with assessment, testing and educating related to body composition, strength, flexibility, blood chemistry, cardiovascular function, and work capacity. Because of the significant investment related to new equipment, the COH proposed a new fee for all students majoring in Integrated Health Sciences. The semester fee of \$45 will be allocated toward: 1.) replacement materials related to human assessment and testing (electrocardiogram leads, breathing tubes, breathing tube filters, oxygen for mixing chamber, veils for calorimetry hoods, batteries), 2.) blood chemistry analysis supplies (capillary tubes, lancets, alcohol wipes, cotton balls, medical tape, lithium heparin tubes, pipette tips, 21 guage vacutainer needles, sharps container, piccolo disks), 3.) Cleaning, maintenance, repair, and replacement surplus (equipment cleaning supplies and surplus for replacement parts such as a treadmill belt, respirator, etc), 4.) Performance laboratory attire (tee shirts and shorts).

Many components of an engine are designed to have a one-time use, and would be considered consumable. Examples would be gaskets, main/connecting rod bearings, and torque to yield fasteners. Another common expense is for thread repair kits. It is very common for students to over torque fasteners, resulting in stripped threads or broken bolts. In the case of a broken bolt, drill bits and bolt extractors are needed. These tools have a very limited reusability before they would need to be replaced.

Diesel Technology degree which is nationally-accredited through the AED Foundation. In order to maintain the AED accreditation, new lab activities have been put in place that require lab expenditure- e.g. replacing wheel seals, packing bearings with grease. there are other supplies that are constantly needed also-washers, cotter keys, axle/spindle nuts, other nuts/bolts, brake springs, as examples, for the current trainers. Due to the number of students using the trainers, a lot of these parts are worn out.

The Associated Students of Montana State University-Northern (ASMSUN) supports fee increase for the following programs. This was voted on and approved by ASMSUN on April 21, 2021. The Senate knows that all these fee increases to course fees will increase the quality of the class.

- *Integrated Health Sciences Program Fee* \$45 (new)
- *Engines* increase from \$22 to \$50
- *Introduction to Hydraulics and Pneumatics Lab* increase from \$16 to \$70
- *Heavy-Duty Chassis* increase from \$10.50 to \$20
- *Hydraulics and Pneumatics II* increase from \$16 to \$70
- *Architectural Materials* \$12 (new)
- *Soils & Foundations* \$25 (new)
- *Design/Details Steel Building* \$10 (new)
- *Highway Design* \$25 (new)
- *Reinforced Concrete* \$15 (new)
- *Senior Projects I* increase from \$2.20 to \$10
- *Senior Projects II* \$10 (new)
- *Introduction to Surveying for Engineers* \$25 (new)

The following fees were not presented to us at our April 21st meeting and therefore were not voted on. At this time ASMSUN can not support the following fee changes.

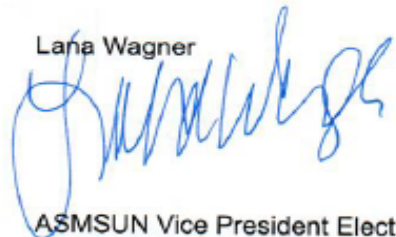

- *Introduction to Computers* decrease from \$5.50 to \$0
- *MS Access* decrease from \$5.50 to \$0
- *Health Fee* increase from \$48 to \$54.25 (FY22) & \$61.25 (FY23)
