**Request for Approval to Revise Board of Regents Policy 940.12.1 - Tuition & Fee Approval**

---

**THAT**

The Board of Regents approves revisions to BOR Policy 940.12.1 – Tuition & Fee Approval to better define and clarify the definition of ‘Student Driven Fees’.

---

**EXPLANATION**

Proposed changes specifically clarify that Student Driven Fees are fees that are proposed by a campus student government and where the revenue generated from the fee is also managed by the student government. Fees of this nature must be voted on by the student body and supported by the majority of voting students. In cases where proposed fees meet these criteria, they are exempt from the traditional biennial approval of fees and may be brought forward annually for Board of Regents consideration.
