

Instructional Space Modernization

MUS-AO-04

Montana State University

Project Cost: \$4,000,000

Long Range Building Plan Request

The project supports ongoing renovations of antiquated classrooms, lecture halls, and instructional computer labs identified by MSU's biennial classroom condition assessment.

Existing Condition

- Instructional spaces range in age and quality requiring ongoing renovations.
- 13 instructional spaces needing improvement were identified in 2022.

Benefit to MSU

- Increase the number of functional, engaging, and innovative learning spaces on campus.
- Support environment for modern technology and teaching pedagogies.
