

# Completion of Montana Hall Life-Safety Improvements

MR-01

Montana State University  
Project Cost: \$2,100,000

## Long Range Building Plan Request

The project will comprehensively rectify life-safety and code compliance issues in Montana Hall by improving the building's fire alarm, emergency lighting, and fire suppression systems.

## Building Statistics

- Year Built: 1896
- Square Footage: 36,655
- Current Facility Index: 18.0%
- Building Use: Student Services, Administrative Offices.

## Existing Condition

- The building lacks adequate fire alarms, emergency lighting, and fire suppression systems.

## Benefit to MSU

- Increased safety for students and employees.
- Increased code compliance.
